

Internet Explorer Flash Player Settings:

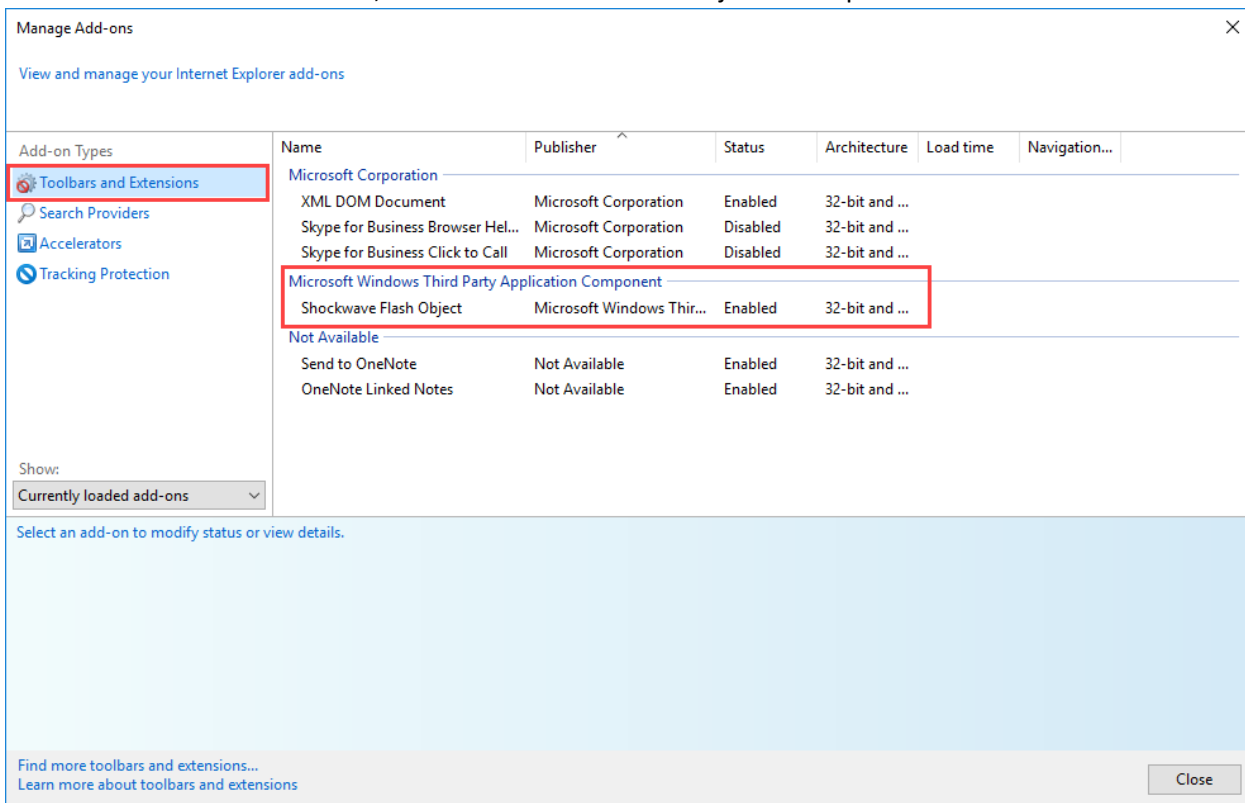

- Click on the Tools menu in the right-hand corner of the browser window

- Go to Manage add-ons

- Under Toolbars and Extensions, ensure Shockwave Flash Object is an option and that it is enabled

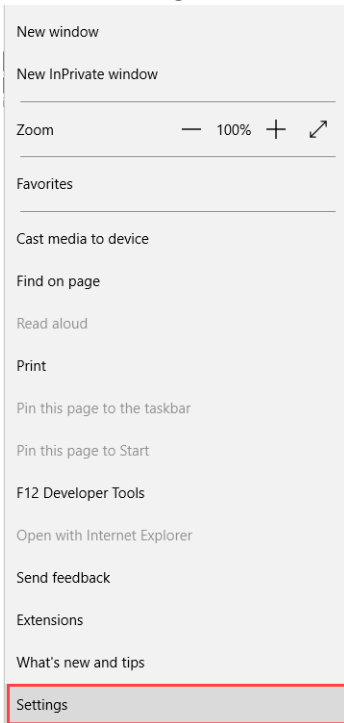

- If Shockwave Flash Object is not an option, download from the Adobe Flash Player website, available here: <https://get.adobe.com/flashplayer/>

Microsoft Edge Flash Player Settings:

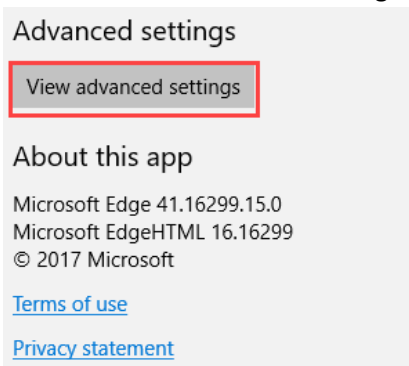

- Click on the Tools menu in the right-hand corner of the browser window

- Click on Settings at the bottom of the Tools menu

- Scroll down to Advanced Settings and click View advanced settings

- Use Adobe Flash Player is an option that can be toggled on or off
